Warissara Chuprasert

Learning & Development | AI Facilitator

EDUCATION

King Mongkut's University of Technology North Bangkok
Faculty of Applied Science
Bachelor of Science (B.Sc.) in Applied Mathematics

WORK EXPERIENCE

- 6 Years in HR & L&D | 4 Years in Automotive Industry
- Facilitated 20+ AI training courses covering tools such as Claude, Microsoft Copilot, Gemini, ChatGPT, Canva, n8n, and Runway.
- Promoted and cultivated an AI-driven culture across the organization and was recognized as an AI Champion.
- Developed employees' advanced AI capabilities, including AI-assisted coding with SQL and PHP.
- Managed and supported 70+ AI projects across the organization.
- Supported employees from different functions in applying AI to improve work processes, develop applications, and automate tasks.

SOFTWARE & TECHNOLOGY

Coding & Development	VS Code | PHP | SQL | phpMyAdmin | Google Apps Script
HR & Digital Systems	Web Application Development | Dashboard Development Workflow Automation | Data Visualization
AI & Automation	ChatGPT | Claude | Copilot | Gemini | AI Coding | AI &Automation Tools

KEY TRAINING COURSES

- AI Coding for Non-Programmers
- Vibe Coding
- Canva AI
- AI for Business
- AI-Powered HR Management
- AI for Smart Manufacturing
- AI-Driven Quality Improvement
- Intelligent Logistics & Supply Chain
- AI for Financial Operations
- Smart Procurement with AI
- AI for Workplace Safety & Risk Management
- AI-Powered Predictive Maintenance

TRAINING EXPERIENCE

HR | Production | Quality | Logistics | Accounting | Purchasing | Safety | Maintenance

Praphan Wonghinkong

Newmodel/Process Engineer | AI & Digital Engineering Trainer

EDUCATION

Ubon Ratchathani University
Bachelor of Engineering (B.Eng.) in Industrial Engineering

WORK EXPERIENCE

Process Engineer

- 8+ Years of Engineer Experience
- Experienced in process improvement, industrial engineering, and manufacturing digitalization in the automotive industry.
- Developed and applied AI-assisted solutions to support engineering and manufacturing work.
- Built web applications, dashboards, and workflow automation tools to improve productivity and reduce manual work.
- Worked on engineering projects involving OEE monitoring, predictive maintenance, tooling management, and production data analysis.
- Supported cross-functional teams in applying digital tools to improve processes, visualize data, and develop practical applications.
- Delivered hands-on support in using AI, coding, and digital systems for real workplace improvement.

SOFTWARE & TECHNOLOGY

Coding & Development	VS Code | PHP | SQL | phpMyAdmin | Google Apps Script | Python
Engineering & Digital Systems	Web Application Development | Dashboard Development Workflow Automation | Data Visualization
Manufacturing & Improvement	OEE Monitoring | Process Improvement |Preventive Maintenance Predictive Maintenance | Work Study| Quality Analysis Tools
AI & Automation	ChatGPT | Claude | Copilot | Gemini | AI Coding | AI for Engineering Automation Tools

KEY TRAINING COURSES

- AI Coding for Engineers & Non-Programmers
- Build Web Applications with AI
- AI for Engineering & Manufacturing
- Dashboard Development for Industrial Applications
- AI for Production / QA / Engineering
- OEE, PM & Predictive Maintenance Applications
- Process Improvement with AI & Digital Tools

TRAINING EXPERIENCE

Engineering

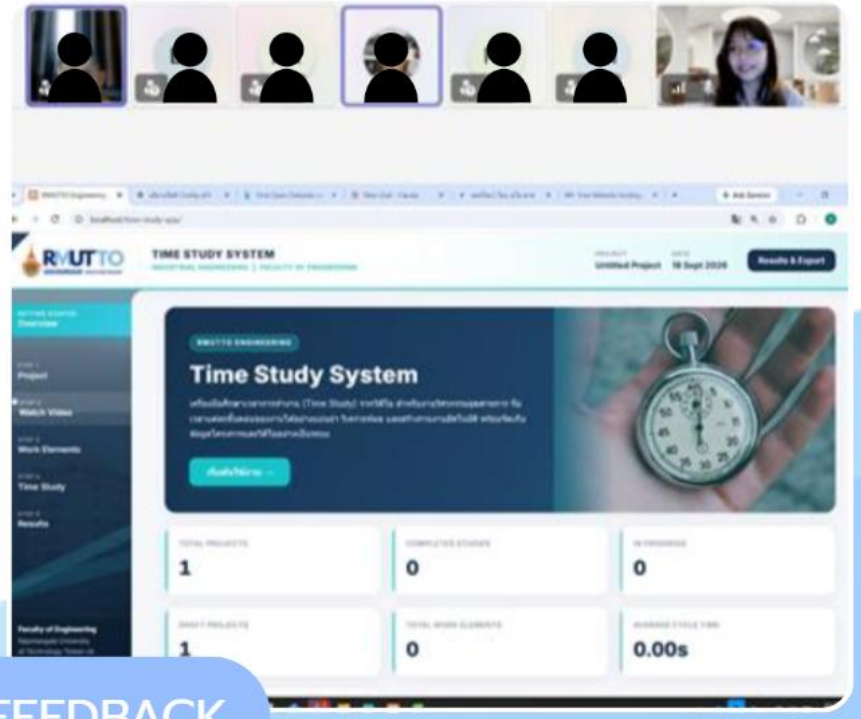

Production

Logistics

Office Functions

On-site Training

THB 15,000 per day

Online Training

THB 2,000 per day

TRAINING FEEDBACK

วิทยากรถ่ายทอดความรู้ได้ดี อธิบายเข้าใจง่าย เป็นกันเอง และให้คำแนะนำอย่างใจเย็น

Effective Communication

เน้นการลงมือปฏิบัติจริง สามารถนำความรู้ไปประยุกต์ใช้ได้

Hands-on Practice

วิทยากรมีความรู้ความเชี่ยวชาญ สามารถตอบคำถามได้อย่างครอบคลุม

Expert Support
